Experience

Technology Consultant | ACJ Konsult, Self Employed, Seychelles | May 2025 - Dec 2025

- Launched a Shopify-based online store for a health & supplement brand, attracting 500+ unique visitors within 2 months and driving 50% revenue growth.
- Integrated CyberSource payment gateway and ensured full bank compliance with security and risk controls.
- Developed the Trade Department's online portal, reducing customer support inquiries by 40% and improving user experience.
- Advised the Seychelles Revenue Commission on compliance gaps and data privacy, improving taxpayer efficiency.
- Flagged logic conflicts between the portal and internal tax rules, prompting escalation to senior management and correction of business-critical workflows.
- Improved taxpayer efficiency by reducing time spent locating filings and transactions.
- Secured ongoing retainer contracts for digital transformation improvements.

Senior Analyst Programmer | Department of ICT, Office of the Vice President, Seychelles | Jan 2025 - Dec 2025

- Developed fullstack government applications using C#, ASP.NET, HTML, CSS, JavaScript and SQL for over 10,000+ users.
- Coded and integrated secure REST APIs with token-based authentication.
- Created responsive, user-friendly frontends, increasing onboarding efficiency for government personnel.
- Delivered citizen-facing software in an Agile Scrum team, supporting national digital transformation.
- Wrote clean, modular code version-controlled via Git and deployed through CI/CD pipelines in Azure DevOps.
- Achieved **60% adoption increase** for digital systems aligned with government modernization goals.
- Led requirement analysis through stakeholder interviews and SOP reviews, re-engineering processes to

streamline workflows and boost efficiency.
- Ensured compliance with ISO 27001 and Data Protection Act, reducing security risks.
- Onboarded and trained 150+ end-users across 10+ ministries, accelerating system rollout and reducing post-launch support needs.
- Coordinated with international development teams; clarified requirements, conducted UAT, and ensured error resolution.

Chief Strategist Officer (CSO) | Enigma Investment (Pty) Ltd, Seychelles | Oct 2024 – Dec 2024

- Led the development of a fullstack Laravel-based car rental platform, increasing bookings by 70%.
- Designed a secure multi-user architecture, integrating Stripe for payment processing and Twilio for WhatsApp notifications.
- Implemented a payment tracking feature that reduced late payments by 45%.
- Handled complete system architecture; including front-end development, UI/UX design, back-end logic, API integration, and relational database design.

Operations Intern - Level 1 Manager (Capacity Planning Team) | Amazon, United Kingdom | Jul 2023 – Sep 2023

- Led a process improvement project that redefined UK linehaul escalation process, reducing Network Control's weekly workload by 40%.
- Created KPI-driven decision criteria using Quicksight data, enabling 85% of delivery stations to self-manage adjustments.
- Improved operational clarity by updating Amazon wikis and aligning cross-functional teams, cutting resolution delays by 50%.
- Designed a feature enhancement proposal for Amazon's FMC tool to automate decision logic checks, aiming to reduce human error and further optimize turnaround time.
- Gained experience in data analysis, logistics and operational efficiency.

Assistant Programmer | St James Exchange Hub, United Kingdom | Jan 2022 – Mar 2022

- Developed trading algorithms using MQL5; gained hands-on exposure to market behavior.
- Generated returns of over £100 and gained foundational fintech knowledge.

Analyst Programmer | Department of ICT, Office of the Vice President, Seychelles | Nov 2020 – Aug 2021

- Developed and maintained internal systems with a strong emphasis on secure, maintainable code.
- Worked on both frontend and backend using C#, HTML, CSS, JavaScript and SQL
- Reduced post-deployment bugs by 50% through rigorous unit and integration testing.
- Created technical documentation, user stories, and solution overviews for technical teams and stakeholders.
- Created system design overviews to align non-technical stakeholders with development vision.
