- Business Process Analysis & Improvement
- Stakeholder Engagement & Client Advisory
- Systems Integration & API Development
- Technical Problem-Solving
- Cross-functional Technical Collaboration
- Agile / Scrum Delivery
- User Acceptance Testing (UAT)
- User Training & System Adoption
- Gap Analysis & Workflow Mapping
- Technical Documentation

Technologies

Professional Experience: SQL | Java | C# | REST APIs | API Integration | Shopify | CyberSource | Jira | Azure DevOps | GitHub

Academic Study & Certifications: Microsoft Azure | Amazon Web Services (AWS)

Professional Experience

Founder & Technology Consultant (Part-time) | ACJ Konsult, Seychelles | May 2025 - Jan 2026

- Developed a Shopify e-commerce platform, enabling a client to launch online sales and contributing to 50% revenue growth within two months.
- Built a government information website that improved access to information, reducing customer support queries by 40%.
- Delivered digital transformation projects through requirements analysis, process improvement and technology implementation.
- Identified a requirements and workflow mismatch in a government tax-payment system, escalating the issue for board-level clarification before implementation.
- Integrated CyberSource payment functionality to support secure online transactions.
- Managed client engagements, stakeholder requirements, solution recommendations and presentations.

Senior Analyst Programmer | Department of ICT, Office of the Vice President, Seychelles | Jan 2025 - Jan 2026

- Contributed to approximately seven concurrent government digital projects supporting 10,000+ users.
- Increased system registrations by 60% by organising training, demonstrating systems and resolving registration barriers.
- Gathered requirements from senior stakeholders, translating business needs into system requirements, workflows and user journeys.
- Developed front-end and back-end functionality using C#, including writing and implementing APIs within Agile sprints.
- Designed user interfaces and analysed cross-departmental processes to improve system usability and workflows.
- Coordinated user acceptance testing (UAT), training and rollout for 150+ users across government ministries.
- Collaborated across programming, cybersecurity, networking, data centre, policy and external stakeholder teams.

Chief Strategist Officer (CSO) | Enigma Investment (Pty) Ltd, Seychelles | Oct 2024 – Dec 2024

- Independently designed and developed a tourism technology platform using Laravel, contributing to a 70% increase in transactions.

- Automated booking processes and improved vehicle-servicing visibility to streamline operations.
- Developed automated WhatsApp and email notifications to provide staff with daily rental information.
- Improved customer journeys and payment workflows, reducing late payments by 45%.

Founder (Part-time) | ActiveVerse, Seychelles| Sep 2024 – Jan 2026

- Launched and managed an activewear e-commerce business processing 300+ monthly orders.
- Achieved break-even within three months, with 60% of sales generated through repeat customers and word-of-mouth.
- Managed digital sales, customer experience, fulfilment and business operations.

Operations Intern | Amazon, United Kingdom | Jul 2023 – Sep 2023

- Analysed UK linehaul operations, identifying operational risks, process gaps and unclear responsibilities.
- Consulted operational teams and delivery-station managers to understand workflows and decision-making criteria.
- Developed recommendations for process improvements, escalation procedures, documentation and training, presenting findings to senior management.
- Proposed a system feature to assess adjustment criteria before requests were submitted.
- Received a graduate return offer following the internship.

Assistant Programmer (Part-time) | St James Exchange Hub, United Kingdom | Jan 2022 - Mar 2022

- Translated foreign-exchange trading rules and requirements into automated functionality using MQL5.
- Developed algorithmic trading functionality based on defined trading criteria.

Analyst Programmer Intern | Department of ICT, Office of the Vice President, Seychelles | Nov 2020 - Aug 2021

- Tested government applications and identified issues before deployment.
- Supported application development through programming, testing and documentation.
- Created user guides to support system understanding and adoption.

Education

MBA in Cloud Computing | Dublin Business School, Ireland | Jan 2026 - Jan 2027 (In Progress)

BSc Computer Science with Business (First Class Honours) | Aston University, United Kingdom | 2021 - 2024

- Outstanding Final Year Project Prize, Aston University
- Computer Science Subject Group Prize, Aston University
- Government of Seychelles Undergraduate Scholarship (£101,000), awarded for academic excellence at A Level
